

Pantone color: Veri Peri

From visiting the Pantone website, I observed the 2022 color called VeriPeri which is a blue color. During fashion week last spring, I saw a lot of this color forecasted for the Winter of 2022. Christian Siriano's fashion line was made up of this tint of blue.

The Pantone Personality Quiz picked Tardis Blue 2955 C, which at first, I did not feel like this blue fit who I am. As I have looked over the description and talked to other people who know me, I have realized this color describes me quite well. It turns out I am more mysterious than I thought
